

ISEC 2011

19th International Solvent Extraction Conference

FIRST ANNOUNCEMENT AND CALL FOR PAPERS

**ABSTRACTS DUE
18 October 2010**

PARTICIPANTS

The Organising Committee is pleased to invite researchers, consultants, engineers and suppliers of equipment, services and technologies worldwide to participate in the **19th International Solvent Extraction Conference – ISEC 2011**. For the first time in the event's 48-year history it will be held in South America, with Chile as host country.

AREAS OF INTEREST

ISEC 2011 will focus on innovations and developments in solvent extraction, research, operations and processing related to the following areas:

- Treatment of dissolved metals in liquid solutions
- Solvent extraction processes, including physicochemical aspects
- Analytical techniques and methods
- Research and development relating to new extractants and extraction systems
- Process chemistry and engineering, including industrial aspects and automated control.

FIELDS OF APPLICATION

The conference will address solvent extraction and stripping in the following industries and applications:

- Metallurgy, pharmaceuticals, food and beverage, chemicals and petrochemicals, nuclear energy, catalysis, polymers and materials, biotechnology and synthesis of natural products.
- Environment in solvent extraction, water and solvent recoveries, industrial effluent treatments, and recovery and recycling of reagents and extractants.

ABSTRACT SUBMISSION

Professionals interested in presenting at the conference are invited to submit a 300-word abstract of their paper in English by **18 October 2010** to isec@isec2011.com. The abstract must be in MS Word format and include a title of maximum 100 characters (with spaces) as well as the corresponding author's contact information. If accepted, a full article in English, up to 6 pages long, will be required by **17 January 2011**.

3 → 7 OCTOBER 2011.
